

Quaver for HISD

Micki Hoevelman

1. Linking to Clever

The first step is to link your existing Quaver account to Clever. Clever is where all the students can find all of HISD's digital resources.

- visit www.clever.com
- In the upper right hand corner log-in as a teacher
- Click Log-in with Active Directory
- Log-in with HISD credentials
- Scroll down to the fine-arts section to find Quaver Music
- The first time you click this it will ask if you have an existing account click **YES**
- Log-in with your Quaver ID and password!

Your Account is now linked and you will now see all of your class rosters in your Quaver account the

2. Edit Classes

Your classes in Quaver will load as the section number and class (Music 1 [1]). You might want to change these to your teacher's names.

3. Create a Lesson

You are now ready to create a lesson!

HOWEVER..... Quaver has already done some great lessons for you!!!

4. Assigning Work

You can now assign your lesson to a class! So when the students log in they will see they have an assignment!

5. Documenting Lesson for TEAMS

To document for TEAMS you can download your PDF of the lesson and add to you files!

6. How will you send this out to students?
